

# OS Custom Made hexmap

<https://www.ordnancesurvey.co.uk/blog/2017/07/custom-made-britain/>

## Description

In June 2017 we took the data collected from all OS Custom Made map orders since the service started in February 2012. After cleansing the data we carried out some analysis to support a press release. We created a whole series of data visualisations to represent the data; varying from analytical to artistic. This hexmap was created to show an aggregated overview of the whole dataset covering Great Britain. A 20km hexagon grid was placed over GB and the centrepoint for every map order was binned into the grid. A multi-hue, sequential colour palette was then applied to the data, split across seven categories.

- Hexagons
- Analysis
- Annotations

## Data Layers and Styling Information

	Text <b>Annotations</b> Font: Source Sans Pro Style: Regular Fill colour: #B2B2B2
	Line <b>Annotation lines</b> Stroke colour: #CCCCCC
	Polygon <b>Hexagon category 7</b> Fill colour: #6E005F
	Polygon <b>Hexagon category 6</b> Fill colour: #AB1866
	Polygon <b>Hexagon category 5</b> Fill colour: #D12959
	Polygon <b>Hexagon category 4</b> Fill colour: #E05C5C
	Polygon <b>Hexagon category 3</b> Fill colour: #F08F6E
	Polygon <b>Hexagon category 2</b> Fill colour: #FABF7B
	Polygon <b>Hexagon category 1</b> Fill colour: #FCE1A4
