

Premier League Stadiums 2016/17

www.flickr.com/photos/osmapping/34819039555/

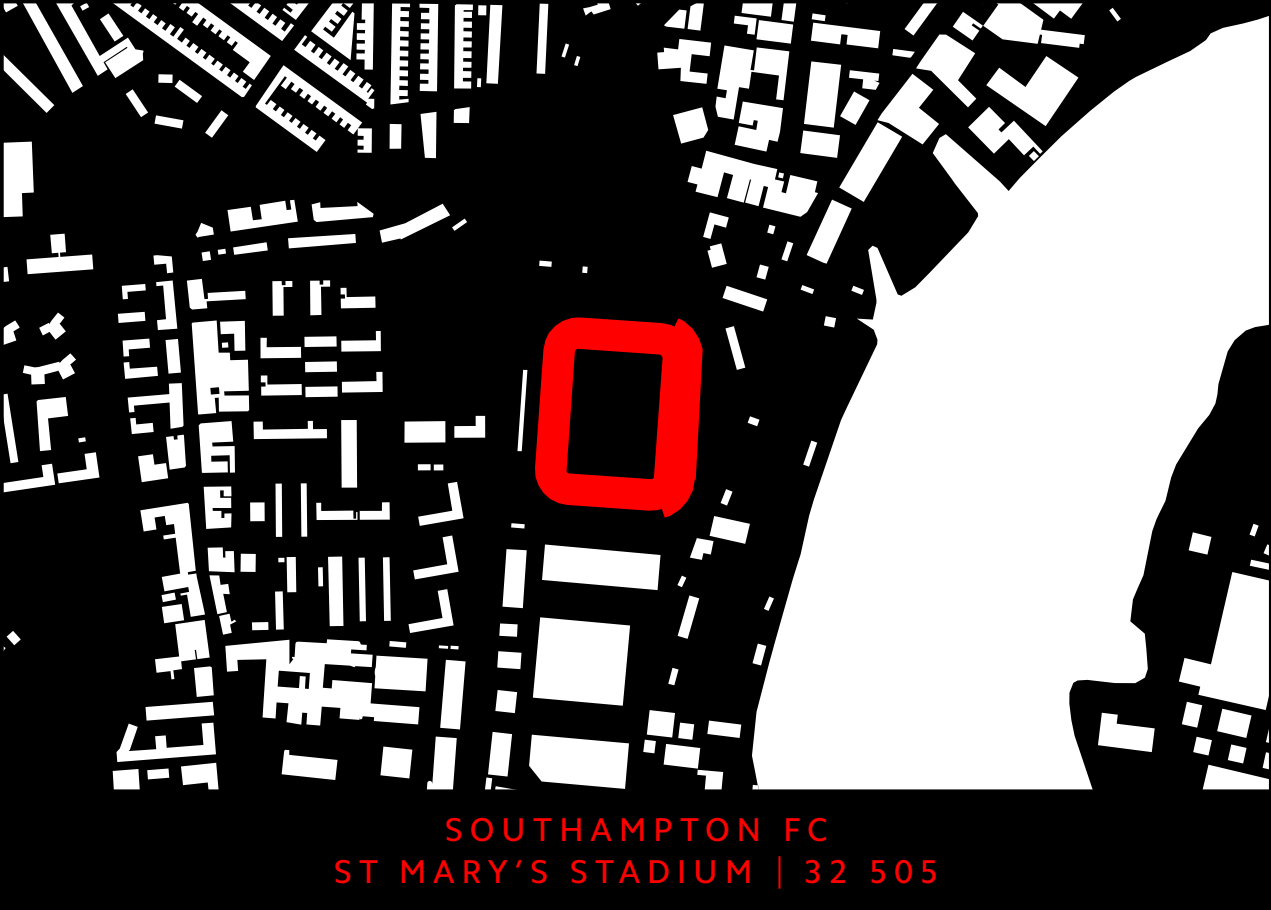

Description

To mark the end of the English Football Premier League season for 2016/17 we created one-off maps depicting each of the 20 teams stadium locations . These were made using OS Open Map Local and each of the stadium locations were styled using the teams colours. The example used is here for Southampton FC.
